Faculty Search in Mechanical Engineering

The Johns Hopkins University’s Department of Mechanical Engineering seeks applicants for tenure-track faculty positions at all levels and across all areas of Mechanical Engineering. Particular emphasis is at the junior level and in the areas of Experimental Fluid Mechanics and Thermal Processes; Energy and the Environment; Mechanics and Materials; Micro/Nanoscale Science and Engineering; Mechanical Engineering in Biology and Medicine; Robotics; Systems, Modeling, and Control; however all qualified applicants in all areas of Mechanical Engineering will be considered.

The Department of Mechanical Engineering has 24 full-time tenured and tenure-track faculty members, 20 research and teaching faculty members, 300 undergraduates, 150 graduate students, 25 postdocs, and strong affiliations with major research centers and institutes. More information about the Department can be found at http://me.jhu.edu and about the Whiting School of Engineering at http://engineering.jhu.edu. Qualifications and required materials can be found at http://me.jhu.edu/about/job-opportunities.

Applicants should submit a curriculum vitae, a research statement, a teaching statement, and three recent publications. Applicants for tenure-track Assistant Professor appointment (only) should also provide complete contact information for at least three references. Applicants for tenured appointment should not provide any reference information. Applications must be made on-line at https://apply.interfolio.com/46531. Review of applications will begin in December 2017. While candidates who complete their applications by December 15, 2017 will receive full consideration, the department will consider exceptional applicants at any time.

Johns Hopkins University is committed to active recruitment of a diverse faculty and student body. The University is an Affirmative Action/Equal Opportunity Employer of women, minorities, protected veterans and individuals with disabilities and encourages applications from these and other protected group members. Consistent with the University’s goals of achieving excellence in all areas, we will assess the comprehensive qualifications of each applicant.

The Whiting School of Engineering and the Department of Mechanical Engineering are committed to building a diverse educational environment.
